14. It is necessary to add plastic to cosmetic products.	F
15. French people must not use plastic utensils after 2020.	T

WRITING SKILLS

Task 1

Dear Lydia,

Here is how you can find your way to our home, for our dinner invitation.

You can take the suburban train from the train station.

Get off at „Szabadság tér” station in the city centre.

Go straight on along the main street and turn left after the traffic lights. Our block of flats is in Kossuth Lajos u. 45, 2nd floor. Press the bell number 8 and I'll let you in.

We are looking forward to seeing you.

Task 2

Dear Sir/Madam,

I would like to spend my community service in your riding school in Bristol as a volunteer at this summer.

I read your programme about teaching sick children to ride a horse and I really want to help you, because it is a fantastic cause.

I know how to ride a horse and I like spending my time with children: I used to go to a children camp in the summer to oversee them.

I could finance my travel and the meals but I would like you to find me a place where I could live in the period while I am in Bristol and I work for you. I could spend there my whole summer after I finish my school in the middle of June.

I can't wait to hear from you.

Yours faithfully,

Nagy Edit
